- VII. General Discussion
 - a. New committees have been emailed
 - b. Health and Safety
 - i. Health and Safety Committee: summary of meeting with Officer Kenny of Campus Security
 - ii. · 10 Officers total, 2-3 on duty → gridded into 3 districts, when only 2 on duty area split in half. Goal is to get more part time officers and one more full time officer then transition the part time to a total of 3 new fulltime officers. More officers=more coverage

- iii. · 1-2 dispatchers, the security office is the central switchboard for Gonzaga, meaning all calls go through the dispatcher
- iv. · Spokane Police Department, 2 patrol cars with one officer each. Runs Thursday through Saturday nights with some weekends going till Sunday. Have GU walkie talkies to communicate with Campo. Patrol mainly Logan neighborhood but if there is an incident on campus and the Campo is busy they can respond. GU pays about \$90,000 per semester for these services
- v. · Runs over 400 cameras. Plant services has more control over the location of cameras and can move them without Campo's knowledge. The dispatch location has access to all the cameras over four monitors but cannot play back feed. Mr. Kenny's computer can play back. He can go mobile with live feed onto his cell phone. There are 12 exterior pan cameras on campus. There are no exterior cameras off campus (i.e. Marion, Crimont). If exterior cameras were put in off campus, signage would have to be put up for the cameras. Cameras are being updated and now are 16 bit cameras from 8 bit
- vi. · Campus Security has not been reviewed in decades, going through process now (started before the incident). They have no jurisdiction in the Logan neighborhood. An option for this would be transitioning into commissioned security officers, they would have to cover more rights when investigating on campus. But would give them the ability to give misdemeanor crimes. This would eliminate the need for paying the SPD on weekends as they could stop house parties, assault, and burglary with exceptions in large scale cases.
- vii. · Gonzaga has an emergency speaker system, has been tested once when students are present. It is connected to the phone in each classroom and can activate the speaker in all classrooms at once but the announcement cannot be heard while class discussion is going on.
- viii. · To Mr. Kenny the students perception of Campo is "confused"
- ix. · If a student ran Safe Ride was to be created: would lessen the face time between students and Campus Security, Mr. Kenny would need to vet all the possible student officers so only he would

be responsible for them. The student officers would have a uniform marked as such and drive the campus vehicles. Could be paid position.

- x. · Going to be releasing a survey for all of Gonzaga need support to get students and faculty to go through the survey and be honest with it.
- xi. · ZagAlert potential alternative: smartphone app that keeps a feed of updates of all burglaries or incidents
- xii. · Last Wednesday of each month there is a meeting with Campus Security at 3pm in the Presidents Conference room where general concerns and discussions about campus safety.
